

J&A Bharat HSE Foundation

(Reg. No.31-IV-2022)

(Thinking Globally... Acting Locally)

Date: 04th March 2022

**Shri Narendra Modi ji,
Honorable Prime Minister of India
New Delhi**

Subject: J&A Bharat Health Safety Environment (HSE) Foundation

Respected Hon. PM Shree Modiji,

Namaskar!

We take this opportunity to introduce ourselves as proud Indian International Health, Safety & Environment Specialists.

Our objectives of Being Vocal for Local for Best Practices in India, are in line with your initiatives introduced by you in India. We have on our team international *safety experts*, totaling safety experience collectively of over 300 Years in various challenging and testing incidents & conditions. The experts have proved their ability in many deadly incidents like in Bhopal gas tragedy, road safety, oil & gas exploration and downstream applications, fire safety & prevention, safety in construction and buildings, including hotels and hospital, chemical industry, pharmaceuticals to name a few.

Each year India is experiencing 500,000 Motor Vehicle Accidents killing 150,000 people and over 3-fold are injured. India recorded 1.6 million fires with 27,027 deaths, every fifth fire-related death in the world in 2017, took place in India. The Indian deaths were 2.5 times the figures in China, where 10,836 people died in fires in 2017 in India. Kids under five and adults above 60 are the biggest fire victims. India has witnessed several major industrial accidents in the past such as the Bhopal Gas Tragedy on the in 1984, releasing approximately 40 tons of toxic methyl isocyanate (MIC) gas, exposing more than 500,000 people to toxic gases resulting in over 25,000 deaths. India has introduced several legislations to avoid such accidents. However, fatal incidents make it to the headlines on a regular basis. For example, the recent fatal gas leak at LG Polymers, 29 major fatal hospital fires in the span of less than three months during peak period of COVID-19, in various cities in India. This only proves the need for education, training and strict enforcement of regulations, and the need for additional control mechanisms in line

with the global industry best practices. In addition, *PRIVATE Third-Party Audits*, [as opposed to government appointed bureaucrats] will greatly reduce cooking of records by unscrupulous managers and inspectors and will offer verifications of the safety standards' claims made by organizations.

Unfortunately, the prevailing culture is based on production and profitability. Currently, safety standards, policies and procedures exist on paper, but lack implementation and enforcement. Efforts must be made by all parties to IMPLEMENT the standards and make "HSE excellence" their industry goal. Achieving such a goal will take teamwork through education and commitment of workers at all levels, supervisory line-management, policy-making executive management and the HSE professionals.

We are pleased to inform you that on February 01, 2022, J&A HSE Foundation was officially registered. Our *vision* is to have a safe Bharat; our *mission* is to advance occupational safety and health profession amongst the industry, academic institutions, regulatory authority, and other related organizations in India; and our *goal* is to minimize loss of life, livelihood, and property. The Foundation is registered with the Sub Registrar office of Saroor Nagar, Rangareddy Dist, Telangana State, India.

We are also poised to create world-class HSE professionals in India, for a safer and brighter future. We aim to Inspire and develop leaders in HSE practice through globally accredited certifications, enhancing careers, for protecting people, property, and environment. The Foundation would specially focus on providing education and developmental opportunities to the deserving individuals extending humanity.

The Foundation has plans to recognize individuals, organizations, academic institutions and more, who have made significant contributions, thereby making a difference in the field of HSE, to motivate and inspire others, for making similar contributions in saving lives, property and environment.

Honorable Shree Narendrabhai, we beg your blessings for success in our endeavor. We are passionate about achieving our goals.

THE FOUNDATION VISION, MISSION AND GOALS:

VISION: J&A HSE Foundation hopes to make India world-class in Health Safety and Environment and be recognized by multinational corporations and global markets as a safe investment and viable manufacturing destination.

MISSION: J&A HSE Foundation will educate, enlighten, and enforce world-class standards. To that end we have set the goals as shown in the attached Appendix-1.

We have world class experts, who are strategically situated in different states of India. They can be contacted for any further clarifications on our recommendations.

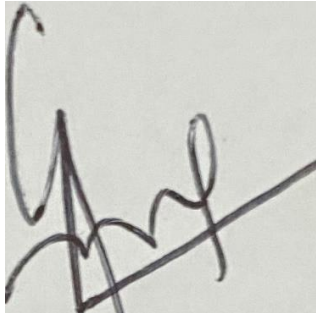

Together, with your vision of a great nation, and our vision of a 'Safe India' we could make this a reality

Respectful regards with Jai Hind,
